C All Diamond-Plate mats can be Customized!

In fact, we frequently make Diamond-Plate SpongeCote No. 415, UltraSoft Diamond-Plate No. 414 and now, Diamond-Plate with GritWorks! No. 416, in custom lengths, widths and unique configurations. If you have a "U" or "L" shaped work area we can make a mat to fit it. If your space requires a circular, oval or triangle mat, simply give us a template. And if you have cut-outs in odd places, we can accommodate that too. Basically the **sky is the limit** when it comes to customizing Diamond-Plate.

Some mats may require two or more sections depending on size, weight and shipping requirements. Square edges are also available. Please call for pricing.
